

Welcome to Green Design's new exciting newsletter!  
We aim to bring you what's new in greening your building, office fit-outs and refurbishments. Planters, Plants, Custom Built Solutions...Green Design solutions.

## New Ideas

Left: Watch this [Youtube](#) video for modern European planters by one of our suppliers. Remember to allow plenty of time for orders that are 'unique' as they may not be available in Australia yet.

Right: Illuminated planters! Why not use an illuminated planter for your next office party ice bucket!

## Increased Knowledge Required as Indoor Plants Become More Popular?

As indoor plants become more popular, many Architects and Designers are faced with a multitude of questions about specific interior plantscaping requirements.

**How does a designer understand the best plant options for their clients ?**

Green Design will bring you guidelines to help you easily understand these requirements and ensure they fit with your clients desires. This includes knowledge of plants and their horticultural needs.

Watch your inbox for the 'Green Directions' News where you will find all your tips on interior plantscaping.

## Green Assist Program

Exciting new program by Green Design is being launched in the coming weeks. Stay tuned for more about our 'Green Assist' program where we can directly work with you on each of your projects. Exclusive to Designers and Green Design clients
